Identification of prior art discussed:

Yano, White et al., and Dewald et al.

Description of the general nature of what was agreed to if an agreement was reached, or any other comments:

The applicant pointed out that the objective, the eyepiece, and the tube lens were not where the examiner had indicated that they were in the Yano reference. The examiner stated that the objective and the eyepiece appeared to be where she had originally stated them to be, but the location of the tube lens would have the looked at further. The examiner agreed with the applicant that there is no tube lens in White et al. The applicant stated that he would file an after final amendment. The examiner stated that she may enter that amendment because of the misinterpretation of the White et al. reference.

(A fuller description, if necessary, and a copy of the amendments, if available, which the examiner agreed would render the claims allowable must be attached. Also, where no copy of the amendments which would render the claims allowable is available, a summary thereof must be attached.)
